Complete grid cancel, fresh, handsome very fine appearance, PF (2013) cert. Scott \$550 Est. \$500/600

Exceedingly Rare, Both Mint and Sound

- 343 (★) 1c Blue, Type Ia, #19 \$4,500
Unused, pos. 93L4, marginal copy, rich color, completely sound, showing all of the key characteristics at bottom (the most important), fine to very fine for this as most copies show perfs touching, PF copy (1974) for strip of 3, PSAG (2015) certs. Scott \$20,000 *Type Ia was produced by only 18 of the 20 bottom-row positions on plate 4. Although plate 4 was designed with sufficient space to accommodate perforations, the height of the top row and bottom row positions resulted in perfs often cutting into design at either top or bottom. For this reason, stamps from bottom row of plate 4 with perforations clear of the design are especially desirable, since the characteristics of the type are complete (Type Ia) or nearly complete (Type Ic) at bottom, this copy is highly desirable since it shows all the type characteristics in the selva and exceedingly rare both mint and sound.* Est. \$5,000/7,000

This copy is highly desirable since it shows all the type characteristics in the selva

- 344 ★ 1c Blue, Type II, #20 \$250
Plate 2, full o.g., fresh, fine to very fine, PF (1976), PSAG (2015) certs. Scott \$900 Est. \$300/400

N.h., very fine, PF (2015) cert. Scott \$320 Est. \$130/150

- 557 B 1910, 49c Booklet, Black on Pink Cover, #BK29 \$350
Toned with crease on cover, n.h., otherwise fine to very fine. Scott \$2,500 Est. \$500/600

- 558 ○ 1911, 3c Deep Violet, "Orangeburg" Coil, #389 \$3,750
Neat strike of wavy-line machine cancel, usual centering, completely sound, fresh and fine, *The Orangeburg coil was made by the Post Office Department in 1911, specifically for use by the Bell Pharmaceutical Company. The 3c coil stamps were used to send samples of their products to physicians. Due to the quantity of mail, they were put through the first-class cancelling machine at Orangeburg, New York. The Orangeburg coil stamps' use on third-class mail, and the fact that philatelists were generally unaware of their production accounts for their rarity. Many have small faults such as corner creases or small tears. Not seen on the market for decades* PF (1984) cert. Scott \$10,500 (valued in grade of fine) Est. \$4,000/4,500

- 559 ☒ 1910, 2c Coil Strip on Cover, #393 \$200
Paste-up strip of 5 (perfs clear to touching), tied reg. on 2c Washington env. from Delaware to Canton, Ohio, very unusual usage with the strip, fine Est. \$250/300

- 560 ☒ 1912, 4c Coil on Cover, #395 \$200
3 copies, 2 with short perfs, tied by cds' June 1913 reg. corner advert. to Detroit from Cincinnati, scarce usage, attractive, fine to very fine Est. \$250/300

-----	-------------	-----------	-----	-------------	-----------

Only One of Three Confirmed Sound Line Pairs

- 574 ○ 1915, 2¢, Type I, Rotary Coil, Line Pair, #449 \$13,000
Lightly canc'd., very balanced wide margins at left and right and intact perfs with portions of adjoining stamps at top and bottom, very fresh color and paper, Grade 75 immaculate and very fine, *ex Ward, a grade 85 pair (the only pair graded until now) realized \$34,500 in the 2012 "Grace" auction which states "only confirmed sound and centered copy", the copy in this auction is not as well centered but has a much lighter cancellation than the somewhat heavily canceled "Grace" pair.* PF (2015), PF (1988) certs. Scott \$25,000 *Census of #449 used joint line pairs (This is #449-CAN-LP-08), records a total of ten plus one in a strip of four. Of these, at least six have faults, leaving only 5 potentially sound pairs (only 3 incl. this one confirmed recently as sound by certifying committees)* Est. \$16,000/20,000

The 2c Type I rotary plate was used very briefly to make vertical coils issued in late 1915. It was briefly used because the Type I plate was not very deeply engraved and the curvature of the rotary press yielded impressions lacking in some details. The Bureau noticed this immediately, and quickly replaced it with Type III plate (according to Scott, the EDU for No. 449 is Oct. 29, 1915, and the EDU for Type III is Dec. 10, 1915)

- 575 ☒ 1915, 2¢, Type I, Rotary Coil on Cover, #449 \$600
Very fine copy, tied on window env. by Dec 10 1915 Times Square roller cancel, very fine usage, APS (1998) cert. Scott \$1,500 Est. \$700/900
- 576 ☒ 1916, 5¢ Rotary Coil on Cover, #458 *Web* \$100
Tied on single usage cover MAR 13 1918 from NY to Zurich with censor seal, very fine, *scarce as single usage* Est. \$120/150

- 577 ○ 1914, 2¢, Imperf Coil, Pair, #459 \$1,500
Light oval cancel, nice margins all round, excellent color, very fine or better appearance scarce in multiples, PSAG (2015), PF (1992) certs. Scott \$3,500 Est. \$2,000/2,500

- 578 ★ 1915, \$1 Violet Black, #460 \$300
O.g., small h.r., excellent color, Grade 85 almost extremely fine, PSAG (2015) cert. Scott Stamp Values \$725 Est. \$400/500

Mills" artistic in 5 colors "Lady in the Clouds" wearing Pure
Silk Gloves, very clean, a very fine cover Est. \$150/200

One of 43 Known Used Singles

- 585 ○ 1920, 2c, Type Ia, Imperf, #482A \$14,000
Used, centered left, PSAG states "small shallow
thin at upper right and small corner crease at lower
left", PF states "light shallow thins", showing
complete intact Schermack perfs at right,
excellent color, fine to very fine for this, *not seen on
the market in decades, Census #Can-23PF* (1984),
PSAG (2015) certs. Scott \$65,000 *Records
indicate three covers, one unused single, a used pair and
37 used singles for a total of 43 stamps. Most examples
are either cut well into the design or have the
Schermack perfs trimmed away on one side*
..... Est. \$15,000/18,000

Scott 482A, like its more famous predecessor, Scott 314A, was issued imperforate by the Bureau of Engraving and Printing and sold to the Schermack Company for use in its patented stamp-affixing machines. The Schermack "Sealer and Stamper" machine typically applied stamps one at a time, and, in most cases, the hyphen-hole perfs on one side would be cut off. Unlike Scott 314A, the release of imperforate sheets printed from the experimental Type Ia plates escaped the notice of contemporary collectors, and, therefore, this stamp has a very small survival rate.
