*End of Sale - Thank You*

# Glossary

## Valuations:

Estimates which appear in this catalogue are provided as a guide to bidders. Bidders are strongly advised to determine valuation based upon their own research and inspection of the lot. It is possible that in instances where catalogue valuations are provided, errors can occur and therefore it is recommended that bidders evaluate the lot independently. It can be assumed that in many instances lots will realize considerably higher than estimates and in other cases considerably less than the estimated price indicated.

## Catalog Number Conventions:

- 1) A dash (“-”) in a catalog number range indicates the set is complete within that range, as listed by the appropriate catalog.
- 2) A single slash (“/”) in a catalog number range indicates the set is incomplete within that range, and some stamps are missing.

## Centering

The following grades are used in this catalog:

**Extremely Fine (XF):** Exceptionally large margins and near perfect centering, used to describe stamps which are of superior grade for the issue.

**Very Fine (VF):** Normal size margins for the issue and well-centered with design nearly centered perfectly.

**Fine (F):** Imperforate stamps may have smaller than normal margins and perforated stamps will be off-center. Issues before 1890 may have the design touching in places.

**Average (Avg.):** Attractive appearance, but margins or perforations cut into design.

## Covers

Minor nicks, tears and slight reduction from opening are to be expected in 19th century covers. Folded letters normally have tears in the reverse and file folds, which will not be mentioned unless they affect the stamps or markings. Light cleaning of covers is an accepted form of conservation and is not grounds for return of a lot. The terms “Extremely Fine”, etc., are meant to convey the overall appearance of cover, not the condition of an individual stamp.

## Special Note-

The following catalogues were used: Scott Vols. 1-6 (2018), and U.S. Specialized (2018), Krause Standard Catalog of World Coins (2014), and others as mentioned.

## Symbols

- ✈ Airpost

## Abbreviations

n.h. = Never hinged – unused with original gum in Post Office state and unmounted.

l.h. = Lightly hinged – unused with original gum showing some evidence of a previous hinging which may be present in part or entirely removed.

o.g. (h.r.) = Original gum with hinge remnant

part o.g. = Part original gum – unused with original gum, large hinge remnants may or may not be present.

dist. o.g. = Disturbed original gum – unused with original gum, affected by sweating, glazing or mount disturbance, may not resemble the original gum.

unused = Unused without gum (unless gum is mentioned)

ungummed = Unused without gum, as issue
